

# Stall Street Journal

Issue 1, Volume 3 - 2007 © The Power of Choice Publishing

Stat of the Month:

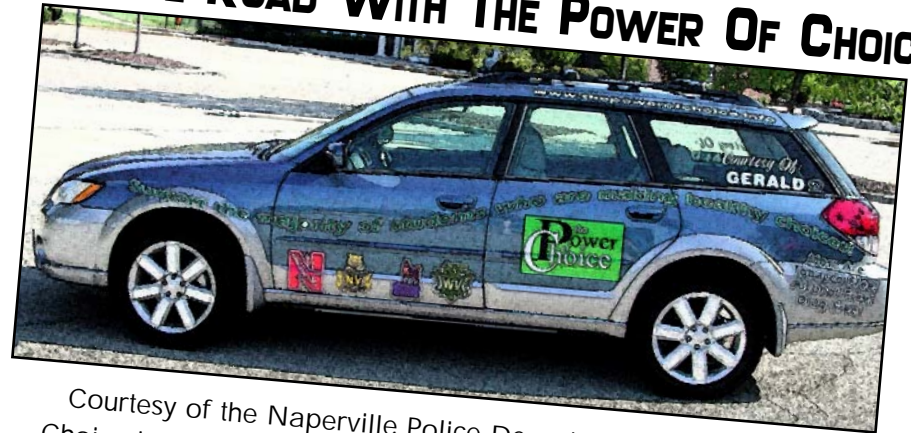

**67%**

have been alcohol free  
for the last 30 days!

The Power of Choice...  
the Choice is Yours

**MOST District 203 & 204  
Students  
are:  
Tobacco Free  
Alcohol Free  
Drug Free**

## ON THE ROAD WITH THE POWER OF CHOICE

Courtesy of the Naperville Police Department - the Power of Choice is driving around town. The Police Department's new car displays our message: "Support the majority who are making healthy choices! Most are Tobacco Free, Alcohol Free, Drug Free." So keep an eye out for Naperville's Finest in their finest vehicle!

## THE POWER OF CHOICE

The Power of Choice is a campaign that aims to create accurate perceptions about alcohol, tobacco, and other drug use at District #203 and #204 High Schools. Unless we call a statistic a "lunchroom survey stat," all of our data is taken from our Annual April Survey that ALL District #203 and #204 High School students complete.

This year at school you will see:

- posters from the Power of Choice (like the ones at the left) which have information from our annual surveys
- Stall Street Journals in the bathrooms (like this one) which let you know more about The Power of Choice
- The I-Team (Interface Team) in the lunchrooms who can answer your questions and have Laffy Taffy
- And you can always find more about The Power of Choice online at:

<http://www.thepowerofchoice.info>

**74%**  
choose  
**NOT to drink**  
because they don't  
want to jeopardize  
their future plans

Source: April 2007 survey of all District 203 and 204 High School Students - A project of NCO Youth & Family Services, Naperville School District #203, Indian Prairie School District #204, Breaking Free, Inc., the Naperville Police Department, DuPage County Health Department, Linden Oaks Hospital at Edward, Lisle Township Youth & Family Services, Heritage YMCA Group, KidsMatter, Provena Mercy Hospital, the Naperville Park District, and District #203 & #204 Parents. Survey and data analysis provided by the University of Illinois Center for Prevention Research and Development. Funded in part by the Department of Human Services.
